CAREER OBJECTIVE

Full Stack Developer skilled in Next.js, React, Node.js, and MongoDB — building fast, real-time web apps with clean architecture and great user experiences. Experienced in role-based systems, Socket.io, payment integrations, and intuitive dashboards. Passionate about clean code and scalable products.

SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, GSAP, Framer Motion, Redux Toolkit, shadcn/ui

Backend: Node.js, Express.js, NestJS, Socket.io, REST API, Firebase, JWT

Databases & Tools: MongoDB, PostgreSQL, MySQL, Redis, Prisma, Mongoose, Docker, Git, GitHub Actions, Vercel, Postman

Data & AI: Python, Pandas, Google Colab, Generative AI

Others: Stripe, SSLCommerz, Cloudinary, Nodemailer, Jest, SonarQube, WordPress, Python, Java, PHP, C, C++

EXPERIENCE

AdsFixter

Barishal

Full Stack Developer

Feb 2026 - Present

- **SaaS Architecture:** Architecting and scaling a modern e-commerce SaaS platform, implementing robust dashboard metrics and interactive management controls.
- **Production Engineering:** Engineering full-featured, secure e-commerce systems, prioritizing database integrity and optimized backend workflows to handle dynamic user data.
- **Component Architecture:** Developing reusable, high-performance UI component libraries using **Next.js** and **Tailwind CSS**, enhanced with fluid animations via **GSAP**.
- **System Optimization:** Deploying core corporate marketing sites and automating testing workflows to ensure production-ready code and high-availability deployment.

PROJECTS

Savory Nest (E-Commerce & Delivery Platform)

[Live Link](#) | [Client](#) | [Server](#)

Led full stack development of Savory Nest, architecting core services, building scalable APIs, and implementing real-time order tracking with live map and rider chat via Socket.io. Integrated secure payment gateways, designed a comprehensive admin dashboard, and ensured smooth cross-module functionality across all e-commerce and delivery features.

Tech Stack:- Next.js, TypeScript, Node.js, Express.js, MongoDB, Mongoose, Socket.io, JWT, NextAuth, Tailwind CSS, GSAP, Tanstack Query, Axios, Recharts, Leaflet, React Hook Form, Stripe, SSLCommerz, Cloudinary, Multer, Nodemailer, jsPDF, Swiper

SellPoint (Real Estate Platform)

[Live Link](#) | [Client](#) | [Server](#)

Developed a dynamic platform where users can rent, sell, or subscribe to properties with real-time communication using WebSocket. Integrated SSLCommerz payment gateway to handle secure payments and manage user subscriptions efficiently. Implemented role-based access for admins, agents, and customers, ensuring secure operations and smooth data management across the platform

Tech Stack:- Next.js, Tailwind CSS, Axios, Context API, Node.js, Express.js, MongoDB, JWT, Socket.io, SSLCommerz, mongoose

Smart CSE (Academic Management System)

[Live Link](#) | [Client](#) | [Server](#)

Led full stack development of Smart CSE, a comprehensive academic management platform for the CSE department. Architected role-based systems for students, teachers, and admins, built scalable APIs for attendance tracking, grade calculation, and result publishing. Integrated PDF export, email-based password reset, and an admin analytics dashboard with department-wide insights.

Tech Stack:- Next.js, TypeScript, Node.js, Express.js, MongoDB, JWT, NextAuth, Tailwind CSS, shadcn/ui, Framer Motion, React Hook Form, Zod, Recharts, Cloudinary, Nodemailer, jsPDF

EDUCATION

University of Barisal

Barishal

Bachelor of Science (Hon's) in Computer Science and Engineering: CGPA: 3.75

Feb 2023 - Present
